IMPORTANT SAFEGUARDS

When using electrical appliances, basic safety precautions should always be followed including the following:

1. **Read all instructions.**
2. Do not touch hot surfaces. Use handles or knobs.
3. To protect against electrical hazards, do not immerse cord, plugs, or the appliance in water or other liquid.
4. This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
5. Children should be supervised to ensure that they do not play with the appliance.
6. Unplug from outlet when not in use and before cleaning. Allow to cool before putting on or taking off parts, and before cleaning the appliance.
7. Do not operate any appliance with a damaged cord or plug or after the appliance malfunctions, or has been damaged in any manner. Return appliance it to a qualified technician for examination, repair or electrical or mechanical adjustment.

**NOTE: DO NOT ATTEMPT TO REPAIR THE UNIT YOURSELF. THIS WILL VOID THE WARRANTY.**

8. The use of accessories or attachments is not recommended by the manufacturer and may result in fire, electric shock or injury.
9. Do not use outdoors.
10. Do not let the cord hang over the edge of a table or counter, as it can cause a tripping hazard that could result in personal injury.
11. **DO NOT** place this appliance on or near hot surfaces, hot gas/electric burner or in a heated oven as these actions could cause the appliance or cord to melt
12. Always fill the water tank first, then plug the cord into the wall outlet. This will reduce the risk of electrical shock or fire.
13. To interrupt the brewing cycle at any time, press either the [stop] or [interrupt] button. Then remove plug from wall outlet.
14. Unplug the power cord from the electrical outlet when the appliance is not in use.
15. Do not use appliance for other than intended use.
16. Do not attempt to move the appliance when it contains hot liquids as there is risk for personal injuries/burns. Allow liquids to cool before you move the appliance.

CAUTION: There are two sharp needles that puncture the capsules. One is located inside the capsule adaptor and the other is located on the top underside of the adaptor compartment. To avoid risk of injury do not place fingers inside either parts. Also exercise caution when cleaning the parts.

CAUTION: There is boiling water in the front tab lid section during the brew process. Do not open the lid at any time for risk of injury.

FOR HOUSEHOLD USE ONLY
SAVE THESE INSTRUCTIONS
ADDITIONAL IMPORTANT SAFEGUARDS

WARNING: This appliance generates heat and escaping steam during use. Proper precautions must be taken to prevent the risk of burns, fires, or other injury to persons or damage to property.

1. All users of this appliance must read and understand this Instruction Manual before operating or cleaning this appliance.
2. The cord to this appliance should be plugged into a 120V AC electrical outlet only.
3. Use water only in this appliance! Do not put any other liquids or food products in this appliance. Do not mix or add anything to the water placed in this appliance, except as instructed in the User Maintenance Instructions to clean the appliance.
4. DO NOT attempt to move an appliance containing hot liquids. Allow appliance to cool completely before moving.

5. Keep appliance at least 4 inches away from walls or other objects during operation. Do not place any objects on top of appliance while it is operating. Place the appliance on a surface that is resistant to heat.

6. If this appliance begins to malfunction during use, press either the on or button. Then remove plug from wall outlet. Do not use or attempt to repair the malfunctioning appliance.

7. Do not use this appliance after it has fallen into or has become immersed in water. Doing so could result in personal injury or property damage.

8. It is recommended to let this appliance cool down for at least 5 minutes between brewing cycles. Wait at least 5 minutes before refilling the water reservoir. Adding water before the appliance cools down could result in personal injury due to steam exposure.

9. Always use fresh, cool water in your appliance. Warm water or other liquids, except as listed in cleaning section, may cause damage to the appliance.

**Notes on the Plug**
This appliance has a polarized plug (one blade is wider than the other). To reduce the risk of electric shock, this plug will fit in a polarized outlet only one way. If the plug does not fit fully into the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not modify the plug in any way.

**Notes on the Cord**
The provided short power-supply cord (or detachable power-supply cord) should be used to reduce the risk resulting from becoming entangled in or tripping over a longer cord. Do not use an extension cord with this product. Always plug directly into a wall outlet/receptacle.

**Plasticizer Warning**
**CAUTION:** To prevent Plasticizers from migrating to the finish of the counter top or table top or other furniture, place NON-PLASTIC coasters or place mats between the appliance and the finish of the counter top or table top. Failure to do so may cause the finish to darken; permanent blemishes may occur or stains can appear.

**Electric Power**
If the electrical circuit is overloaded with other appliances, your appliance may not operate properly. It should be operated on a separate electrical circuit from other appliances.
INTRODUCTION

• This single-serve Coffee Maker uses a pressurized system to brew a perfect single hot beverage.
• The adjustable drip tray accommodates any size cup, mug, tall travel mug or tumbler.
• Use the ground coffee adaptor (included) to create special blends of your favorite coffee. For added personalization, add a dash of your favorite spice, from cinnamon, orange peel, cardamom or vanilla bean to name a few.
• Using the reusable ground coffee adaptor is an environmentally-friendly choice that will also save you money!

1. Water Tank Lid
2. Water Tank with Stepped Water Level Indicator
3. Adaptor Compartment
4. Locking Adaptor Compartment Lid
5. Front Lid Tab
6. Capsule Punch
7. Capsule Adaptor
8. Reusable Ground Coffee Adaptor
9. Nozzle
10. Control Panel
11. Adjustable Height Drip Tray with Back Tab
12. Drip Tray Cover
13. Drip Tray Slot
14. Base
15. Red PREHEAT Indicator Light (See Figure 1A.)
16. Blue BREW Indicator Light (See Figure 1A.)
17. Capsule Button (See Figure 1A.)
18. GROUND COFFEE Button (See Figure 1A.)
19. Electric Cord with Polarized Plug
BEFORE USING FOR THE FIRST TIME

CAUTION: To protect against electrical shock, do not immerse the Coffee Maker or allow power cord to come into contact with water or other liquids.

1. Remove all packing material and labels from the inside and outside of the Coffee Maker. Place the unit on a flat, clean surface.
2. Before use, thoroughly clean both adaptors with warm soapy water.
3. To clean the inside of the unit, it is recommended to brew two full cycles of water only.
4. Using the desired cup, mug, or tumbler as your measure, add water to the water tank.
5. Select the desired height for the drip tray, depending on the size of the cup, mug, or tumbler being used.
6. Place the empty cup, mug, or tumbler in position on the drip tray cover.

NOTE: Do not add any adaptor for this initial cleaning.

7. Press either the ☕ or ☕ button.
8. The red PREHEAT indicator light will begin to flash as the Coffee Maker begins heating the water.
9. When water has reached the optimum temperature, the preheat light will go out and the blue BREW light will illuminate. Water will begin to stream through the nozzle. At the end of the cycle, the Coffee Maker and all indicator lights will automatically turn OFF.

IMPORTANT: Repeat this process twice to thoroughly clean the machine before using for the first time.

10. Unplug the Coffee Maker when not in use.
BREWING INSTRUCTIONS

The drip tray adjusts to two heights to accommodate shorter cups or mugs to taller travel mugs/tumblers. For taller travel mugs and tumblers, make sure the drip tray and cover are properly placed in the lower position. (See Figure 2.) When brewing a smaller cup, raise the drip tray to the upper level to avoid splatter. (See Figure 4.)

ADJUSTING THE DRIP TRAY

1. Grasp the drip tray and cover from the base cut-outs. (See Figure 2.)
2. Holding on to both pieces, slightly tilt upwards and slide out from the unit. (See Figure 3.)
3. Using the tab on the back of the drip tray as your guide, again slightly tilt both pieces upwards and glide the tabs into the upper slots on the Coffee Maker body. (See Figure 4.) Press down on the drip tray with your hand to make sure it is firmly and properly attached before placing the cup or mug on top.
SETTING UP YOUR SINGLE SERVE COFFEE MAKER USING THE CAPSULE ADAPTOR.

**WARNING:** Before brewing, it is recommended the water tank be filled at least to the lowest 8-oz. step. To avoid damage to your Coffee Maker, never operate your Single Serve Coffee Maker when the water tank is empty.

1. Lift the water tank lid located at the top back of the unit. (See Figure 1.)
2. Using the desired cup, mug, or tumbler as your measure, add water to the water tank. The water tank has an easily visible, stepped water level indicator. Add water to the desired fill line to brew one cup of any hot beverage. The level indicator marks 8-oz., 10-oz., and 14-oz. However, any amount of water may be added. **DO NOT EXCEED** the 14-oz. **MAX** fill line.
3. Lower the lid.

**IMPORTANT:** For optimal flavor, distilled water is preferred.

4. Position the cup under the nozzle and onto the center of the drip tray cover.
5. Pull the adaptor compartment’s front tab up to unlock and lift the lid.
6. Choose the capsule adaptor. With the handle facing front, place the capsule adaptor into the adaptor compartment. Slide the adaptor handle into the grooves at the front of the Coffee Maker. (See Figure 5.)
7. Add the capsule of your choice into the capsule adaptor.
8. Press the adaptor compartment’s lid down firmly. An audible click can be heard as the lid is locked firmly into position. Both the top and bottom of the capsule will be punctured.
9. Plug the Coffee Maker into a 120V AC electrical wall outlet.
10. Press the button to begin the brew cycle.
11. The red **PREHEAT** indicator light will begin to flash as the Coffee Maker begins heating the water.
12. When the water has reached the optimum temperature, the preheat light will go out and the blue **BREW** light will illuminate.
13. The pump will then activate and coffee will begin to stream through the nozzle.
14. To interrupt the brewing cycle at any time, press the button. Then remove the plug from the wall outlet.
15. At the end of the cycle, the Coffee Maker and all indicator lights will automatically turn OFF.
16. Unplug the Coffee Maker when not in use.
SETTING UP YOUR SINGLE SERVE COFFEE MAKER USING THE GROUND COFFEE ADAPTOR.

The ground coffee adaptor allows you to create your own favorite blend of coffee. Personalize your blends by adding a dash of cinnamon, orange peel, cardamom or vanilla bean for flavoring.

NOTE: For best results, use medium ground coffee.

WARNING: Before brewing, it is recommended the water tank be filled at least to the lowest 8-oz. step. To avoid damage to your Coffee Maker, never operate your Single Serve Coffee Maker when the water tank is empty.

1. Lift the water tank lid located at the top back of the unit. (See Figure 1.)
2. Using the desired cup, mug, or tumbler as your measure, add water to the water tank. The water tank has an easily visible, stepped water level indicator. Add water to the desired fill line to brew one cup of any hot beverage. The level indicator marks 8-oz., 10-oz., and 14-oz. However, any amount of water may be added. DO NOT EXCEED the 14-oz. MAX fill line.
3. Lower the lid.

IMPORTANT: For optimal flavor, distilled water is preferred.

4. Position the cup under the nozzle and onto the center of the drip tray cover.
5. Pull the adaptor compartment’s front tab up to unlock and lift the lid.
6. Choose the ground coffee adaptor. Fill the reusable ground coffee adaptor to the designated fill line, or to taste. DO NOT EXCEED the MAX fill line.
7. With the handle facing front, place the ground coffee adaptor into the adaptor compartment. Slide the adaptor handle into the grooves at the front of the Coffee Maker. (See Figure 6.)
8. Press the adaptor compartment’s lid down firmly. An audible click can be heard as the lid is locked firmly into position.
9. Plug the Coffee Maker into a 120V AC electrical wall outlet.
10. Press the button to begin the brew cycle.
11. The red PREHEAT indicator light will begin to flash as the Coffee Maker begins heating the water.
12. When the water has reached the optimum temperature, the preheat light will go out and the blue BREW light will illuminate.
13. The pump will then activate and coffee will begin to stream through the nozzle.
14. To interrupt the brewing cycle at any time, press the button. Then remove the plug from the wall outlet.
15. At the end of the cycle, the Coffee Maker and all indicator lights will automatically turn OFF.
16. Unplug the Coffee Maker when not in use.
SETTING UP YOUR TWO-WAY SINGLE SERVE COFFEE MAKER TO BOIL WATER.

Heating plain water in your Single Serve Coffee Maker is quick and easy. Water is dispensed at the perfect temperature for preparing single cups of bagged teas, instant soups, quick cooking oats, packaged hot chocolate, hot apple cider or anything that requires boiling water. WARNING: Before brewing, it is recommended the water tank be filled at least to the lowest 8-oz. step. To avoid damage to your Coffee Maker, never operate your Single Serve Coffee Maker when the water tank is empty. DO NOT EXCEED the 14-oz. MAX fill line.

1. Follow detailed brewing instructions described previously.
2. Following package instructions, add the specified amount of cold water to the water tank.
3. Prepare your cup, mug, or tumbler by placing one tea bag into your cup, or by emptying the contents of the package into your cup.
4. Do not use either of the adaptors.
5. Following detailed instructions described previously, adjust the drip tray to accommodate your cup, mug, or tumbler.
6. Center the cup under the nozzle and press the button.
7. After water has been heated and dispensed, stir contents well.

BREWING ANOTHER CUP

1. You can brew cup after cup of your favorite hot beverage.
2. After the brewing cycle is completed, it is recommended to unplug the unit and allow the Coffee Maker to cool for 5 minutes between cycles.

IMPORTANT: To prevent tainted or “off” flavors when changing hot beverages, while the unit is OFF, use a damp paper towel to completely remove any residue from the adaptor compartment.

USER MAINTENANCE INSTRUCTIONS

This appliance requires little maintenance. It contains no user-serviceable parts. Any servicing requiring disassembly other than cleaning must be performed by a qualified appliance repair technician.
CARE & CLEANING INSTRUCTIONS
1. Always make sure Coffee Maker is unplugged and the drip tray and cover are cool before removing from the base.
2. Rinse drip tray and cover and replace in the Coffee Maker base.
3. Press the adaptor compartment’s front lid to unlock and lift the lid.
4. Remove the used capsule from the capsule adaptor and discard. Rinse the capsule adaptor in warm water before each use.
5. When using the reusable ground coffee adaptor, discard the used coffee. Wash adaptor in warm, soapy water. Rinse well.

NOTE: Both the capsule and the ground coffee adaptors are top rack dishwasher safe.
6. Use a damp paper towel or sponge to completely remove any residue from the adaptor compartment.
7. Wipe the exterior of the Coffee Maker with a damp cloth to remove superficial stains. For stubborn stains, use a nylon or plastic pad with a non-abrasive cleanser. Do not use metal scouring pads or abrasive cleansers.

DESCALING INSTRUCTIONS
Special cleaning of your Coffee Maker is recommended at least twice a year, depending on frequency of use and quality of water used in the unit. If water in your area is especially hard, the following cleaning procedure should be performed more often, since minerals in water can detract from the flavor of the coffee and possibly lengthen brew time.

1. Fill water tank with 1 part white vinegar (3-oz.) to 3 parts cold water (9-oz.).
2. Do not add any adaptor.
3. Press either the ☕ or ☕️ button.
4. The red PREHEAT indicator light will begin to flash as the Coffee Maker begins heating the cleaning solution.
5. The blue BREW light will illuminate as the cleaning solution begins to stream through the nozzle. At the end of the cycle, the Coffee Maker and all indicator lights will automatically turn OFF.
6. Following the same procedure, continue to run clean water through the Coffee Maker three times, or until water is clean and fresh and no residual vinegar odor or flavor remains.
7. Unplug the Coffee Maker when not in use.
8. Dry parts thoroughly. Wipe the Coffee Maker’s exterior with a dry cloth.

STORING INSTRUCTIONS
1. Unplug unit and allow to cool.
2. Never wrap cord tightly around the appliance. Do not put any stress on the cord where it enters the unit, as it could cause the cord to fray and break.
3. Store one clean adaptor in the Coffee Maker’s adaptor compartment.
4. Store the Coffee Maker in a cool, dry place.
5. Never store unit while it is still plugged in.
COOKS
LIMITED WARRANTY

Limited One (1) Year Warranty
J. C. Penney Corporation, Inc. (JCPenney) warrants this product to be free of defects in material and workmanship for a period of one (1) year from the date of original purchase (the “Warranty Period”). Dated proof of purchase such as a bill of sale is required to establish warranty eligibility. If the product fails to perform due to a defect in materials or workmanship during the Warranty Period, JCPenney will repair or, at JCPenney’s option, replace the merchandise with the same or comparable item at no charge to you for parts or labor. In the event that the product can not be repaired and a suitable replacement item is not available, JCPenney will refund the original purchase price shown on your proof of purchase.

To Obtain Warranty Service
In the event that your product requires repair during the Warranty Period, contact your nearest JCPenney retail store or call JCPenney Product Service Dept. (800) 933-7115 for information regarding where to obtain warranty service.

What This Warranty Does Not Cover
This warranty does not cover (a) damage due to acts of nature, including but not limited to, lightning, wind, or flood; (b) damage due to accident; (c) damage due to neglect, abuse, misuse, improper installation, mishandling, or failure to follow instructions provided in the product’s Owners Guide; (d) damage resulting from alteration, improper maintenance, or repair by other than JCPenney authorized agent; (e) labor charges for installation, or for removal and reinstallation of the item for servicing; (f) non-rechargeable batteries, consumables, normal wear parts; and/or (g) items used in commercial applications.

REPAIR OR REPLACEMENT AS PROVIDED IN THIS EXPRESS WARRANTY IS THE PURCHASER’S EXCLUSIVE WARRANTY REMEDY. ALL IMPLIED WARRANTIES INCLUDING THE WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE ARE LIMITED IN DURATION TO THE PERIOD OF THIS LIMITED WARRANTY. IN NO EVENT SHALL JCPENNEY BE RESPONSIBLE FOR ANY LOSS OR DAMAGE, INCLUDING DIRECT, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES RESULTING FROM THE USE OR INABILITY TO USE THIS PRODUCT.

Some states do not allow limitations on how long an implied warranty lasts or the exclusion or limitation of incidental or consequential damage so the above limitations or exclusions may not apply to you.

This Warranty gives you specific legal rights and you may also have other rights which vary from state to state.
